

The CHARACTER COUNTS! Program.

This program was designed and developed by the Louisiana 4-H livestock program. It consists of lessons and posters dealing with the six pillars of character which include:

- Trustworthiness
- Fairness
- Respect
- Caring
- Responsibility
- Citizenship

The kit includes both skits and detailed lessons dealing with each of these valuable pillars of character. Every kit discusses certain situations that require young people to know the basics of each pillar listed above and how to respond effectively. The pamphlets also include some ways parents could show good character. The posters also highlight important key elements and give situational instruction on how to build each one of those six pillars of character. The program is highly recommended to help develop the character of youth in America.
