Connecting the GPS Booster

GPS Booster Parts
A  DC power plug (cigarette lighter plug)
B  GPS signal repeater
C  GPS antenna

Instructions for use with OptiReader

1. Connect the cable from the cigarette lighter end (A) into the back of B.
2. Connect the cable end of C into the back of B.
3. Turn on your OptiReader until it gets to the GPS lock search mode.
4. Plug A into your vehicle’s cigarette lighter.
5. Place C of the booster on top of vehicle roof or on the hood (somewhere outside of the vehicle with a clear view of the sky).
6. Place B directly on top of the OptiReader battery box as shown here.
7. Wait for GPS locks. (3 GPS locks are required to start imaging session)
