Are You Into It?

In the 4-H sheep project you can learn about breeds, selection, grooming, production, management, showmanship, marketing, and careers.

- Learn the basic principles of animal science by owning, caring for, and keeping records on one or more head of livestock
- Gain knowledge of sound breeding, feeding, and management practices
- Identify quality in wholesale and retail cuts of meat to understand the relationship to management principles

Here’s what you can do all year!
