

## Horse Project Ideas

Looking for project ideas that don't involve showing a horse? We have ideas to help you get started!

- ◆ Make up a Horse Board Game
- ◆ What if you bought your own horse, what you would need to care for it (tack, feed, building, vet work etc.) Cut pictures out of magazines and keep track of your expenses.
- ◆ Design your own barn

Items marked with ( \* ) are good for juniors but they can also be used for anyone. These ideas may be put into a poster, kits, flashcards or whatever you come up with! You can use pictures, visual aids and much more. Good Luck! Great places to get information is your local library and the internet. Don't forget to keep track of the books and websites you use for information, you will need to give them credit for the information.
