Early Childhood Environment Rating Scales (ECERS/ FDCRS/ ITERS/ SACERS) Training/Consultation /Technical Assistance

The following Extension Educators are available to conduct Environment Rating Scale (ERS) training, consultation, and technical assistance for child care programs. Each educator has received intensive training and has conducted numerous assessments with the Environment Rating Scales.

As a requirement for teaching ERS classes, each educator must maintain at least 85% inter-rater reliability or "scoring agreement" with a certified validator and must renew this reliability every 6 months. This ensures that the information learners receive is accurate and consistent with the information and assessment methods used by QRS Environment Rating Scale Assessors.
