

B.L.G. meets on Thursdays at the Louisa County Extension Office West Wing. We are 17 members strong, losing only one to graduation, Josh W, our president. We all wish him the best and will miss him.

Leader Tammy Hiller has kept the group on its toes with workshops and projects and community service throughout the 4-H year. Members have worked hard cleaning ditches and participating in project quizzes, participating in county fair and going on to state fair. Several members have grown from group activities to continuing on their own by visiting the Wapello Care Center and helping at bingo or planting/landscaping for others who cannot.

We welcome visitors who would like to know more about joining a club in Louisa County.
