Save for a house downpayment and we'll match your savings up to \$1,000

Iowans Save! is a special savings program where people with limited incomes save a dollar and are matched a dollar to save for their first home. Individuals must meet income guidelines and must have earned income. If you save \$1,000, you'll receive another \$1,000 for a total of \$2,000. In return, you'll need to complete a financial education class and homeownership training. You must make a deposit of at least \$25 a month and must stay in the program at least six months.
