SWINE ERYSIPELAS VACCINATION AFFIDAVIT

I certify my 4-H/FFA market swine were vaccinated **TWICE** for swine erysipelas between 40 lbs. and July 2, 2009, using a **STRAIGHT** Erysipelas vaccine, with the last shot between 45 and 21 days before fair. It is recommended that your veterinarian administer the last erysipelas shot. I also certify that I have not had any signs of acute erysipelas during the last 30 days on the premises from which my show hogs were finished.

Required 40 lbs. or above:

Date 1st shot given _____

Type of vaccine used _____

Lot # of vaccine _____

Expiration date _____

Optional 2-3 weeks later:

Date 2nd shot given _____

Type of vaccine used _____

Lot # of vaccine _____

Expiration date _____

Required between 45-21 days prior to fair (between June 10 and July 2):

Date 3rd shot given _____

Type of vaccine used _____
