

# Rocks to Ice Cream

**Target Audience:** K-3<sup>rd</sup> grade

**Description:** Students learn about the history of the agriculture and how we get the food we eat today. The curriculum focuses on foods that are commonly used in households and are also found in ice cream.

**Format:** This session takes anywhere from 1.5 to 3 hours.

**Session:** Students learn the basic steps of agricultural history through the use of pictures, signs and story telling. Youth focus on ice cream and how each ingredient reaches grocery stores. Students make ice cream using these ingredients.
