The enrollment is limited and we have many individuals who have indicated an interest. Therefore, we will take registrations on a first come, first served basis in the Story County Extension and Outreach office. The ISU Extension and Outreach Master Gardener class is packed full of information and the opportunity to network with other gardeners makes this one of Extension's most popular programs. Instruction is provided by ISU horticulture experts, as well as, local experts who are known for their gardening know how.

Sincerely,
