The **GREAT STARTS** program allows all new mothers in Adair County to receive a free home visit from one of our trained public health nurses. The nurse provides a mini assessment of the newborn, information and counseling regarding newborn and post partum care. The **BUCKLE UP RIGHT** program promotes safe transportation for Adair County children, by ensuring proper use of a child safety seat and installation. The program also provides seats to families in need or to those who have had their seat recalled. Child safety seats can be checked at one of the various clinics held throughout Adair County or by appointment.

Using the Parents-as-Teachers curriculum, parent educators personally visit homes to help you know what to expect as your child grows. Nutrition & basic financial management information is also available. The program is based on the belief that parents are their child's first and most influential teachers. Open to all families at no cost.
