

Tip of the Week

Extension Tip of the Week (TOW)
June 30, 2008
What's Your Child's Behavior Style?

Each baby is born with his/her own unique style of behavior or temperament. Since babies don't come with manuals, parents and babies must learn to figure each other out. Learning your baby's temperament will help you figure out what works best for your baby.

By four months of age your baby's temperament will become clearer. At that time you can find out more about your baby's temperament by completing a free on-line questionnaire at <http://www.preventiveoz.org>. When you get to the website, click on *Image of Your Child*.

Questionnaires are available for parents of infants, toddlers and preschoolers.
