

Ultrasound Technology Provides Objective Data

Ultrasound data collected
Friday, September 5th
1:00-3:00pm

Available to Clay County 4-H/FFA
Market Beef & Scramble Calves

Bring calves to the chute with clean, dry hair.

Ultrasound technology uses high frequency sound waves to "see inside" the live animal. Reflecting sound creates a cross-section image. Ultrasound provides an objective prediction on the carcass composition.

Jim Schoelerman will ultrasound market beef and scramble calves, cost of the ultrasound will be donated by Pharmco of Everly.

Clay County Fair 4-H/FFA Ultrasound Carcass Contest Saturday, September 6th

- No entry fee
- One marketing grid
- Premiums awarded
- Ultrasound Champion on display in Champion Alley
