## Franklin County

### Working Age Population

Franklin County is a non-metropolitan county in north central Iowa. The working age population (ages 16 to 64) in Franklin County declined 18.0 percent between 1980 and 1998. Statewide, the working age population decreased 0.5 percent over that period.

#### 1. Total population and the working age population, Franklin County, 1980-1998.

Year	Total Population	Population 16 to 64 Years of Age	Percent of Total	
			Franklin County	State
1980	13,036	7,779	59.7	62.1
1990	11,364	6,470	56.9	61.4
1998	10,863	6,381	58.7	62.9

### Labor Force

The labor force in an area consists of all persons aged 16 or older who either are currently employed or actively seeking work. The number employed reflects the number of labor force participants in the county who currently have jobs (whether or not it is the job of their choice). The employment rate is the percent of labor force participants who are employed.

## Employment and Earnings by Industry

The employment data in Tables 3 and 4 represent employment by place of work rather than place of residence. This means that the information is based on the jobs located within the county, whether or not county residents fill those jobs. As a result, county residents who commute to jobs outside their county of residence are not counted in these figures, but non-county residents who commute into the county for work are counted.
