NVWOA (Nodaway Valley Woodland Owners Association) is dedicated to the establishment, protection, and enhancement of SW Iowa’s woodlands, watersheds, wildlife and natural resources, through sustainable management strategies. The formation of this association will help unite private landowners with common goals and interests in managing their woodlands for many long term outputs (wildlife, recreation, timber, etc). The facilitators of this association hope to assist the members through on-site visits, technical assistance, and through cost-share programs by which the landowners can achieve their management goals.
