

# Global Citizenship

## What is Global Citizenship?

Global Citizenship involves understanding the world around us and our place in it. Appreciation for all cultures, including one's own, as well as a desire to learn and explore about issues affecting societies, agriculture, the environment, and resources around the globe are key components that make up Global Citizenship.

## How can I become a Global Citizen?

A Global Citizen encourages individuals to develop and share their understandings about the world with others so they can be responsible and knowledgeable global citizens as well. By working together we can ALL become global citizens!
