CAI WINS AWARDS FOR AGRONOMY EDUCATION

The Crop Adviser Institute (CAI) at Iowa State University won five education awards at the recent American Society of Agronomy meetings in New Orleans. The awards that the CAI received are for excellence in creating computer and internet-run programs for Certified Crop Advisers (CCA) and other agricultural professionals.

The winners are: Daren Mueller, X.B. Yang, Brent Brueland, and Alison Robertson, for Soybean Rust 2007; and Palle Pedersen, Marlin Rice, Brian Lang, and Matt O’Neal, for Soybean Aphid 2007. These modules can be viewed and downloaded from the CAI website (http://www.cai.iastate.edu).

2007 CORN AND SOYBEAN CROP TEST DATA AVAILABLE ONLINE

Each year, Iowa State University, in cooperation with the Iowa Crop Improvement Association, tests a number of commercially available corn hybrids and soybean varieties at various locations across the state. Studying yield and other results of the Iowa corn and soybean variety tests can help you make better seed decisions for next year, says Jim Rouse, program manager of the ICIA corn and soybean tests.

The 2007 Iowa Crop Performance Test Results are available on the Internet at www.croptesting.iastate.edu. After harvest, the test results are also available in printed form from ISU Extension county offices.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, and marital or family status. (Not all prohibited bases apply to all programs.) Many materials can be made available in alternative formats for ADA clients. To file a complaint of discrimination, write USDA, Office of Civil Rights, Room 326-W, Whitten Building, 14th and Independence Avenue, SW, Washington, DC 20250-9410 or call 202-720-5964.
