INFORMATION WORKSHOP ON THE "NATIONAL INTEGRATED WATER QUALITY PROGRAM" FUNDING OPPORTUNITY

The Heartland Regional Water Coordination project will host a workshop that will summarize the opportunities for funding under this National Integrated Water Quality Program. We will target extension funding opportunities appropriate for local, state, and regional projects.

The goal of the National Integrated Water Quality Program is to improve the quality of our Nation's surface water and groundwater resources through research, education, and extension activities. Projects funded through this program will facilitate achieving this goal by advancing and disseminating the knowledge base available to agricultural and rural communities. This program can be used to fund education only, extension only, and integrated research/education/extension proposals on almost any scale from a local watershed to a national level. Additional information on the 2008 call for proposals is at http://www.csrees.usda.gov/fo/waterqualityicgp.cfm

The arrangements for participating are as follows:

Date: Thursday, February 14

Time: 3 - 4 pm Central Time

Web Connection to Audio and Video: http://connect.extension.iastate.edu/unlvoip/
(Your computer will need to have speakers to listen to the presentation)
