

Content Area Lesson 2: Dairy Does a Body Good
Activity 5: Making and Testing a Bone

Iowa Core Curriculum Met:

Science Standards

- Content Standard 1: Students can understand and apply skills used in scientific inquiry.
- Content Standard 2: Students can understand concepts and relationships in life science.

Supplies Needed:

Making a Bone Worksheet, (found under lesson 2 activity 5 making bones)

Plain white paper

Activity Length: 60 minutes

Activity Directions

1. Use the Making Bones Worksheet to lead this activity.
2. Students should complete each of the steps on the worksheet

Discussion:

1. Why do we need to feed our bones everyday to keep them strong?
2. What are the books showing you about bones?
3. What makes the bones really strong?
