

Animal Identification for FFA Members

Before You Start

Animal ID does NOT register you or create entries into your fair.

Boone County Fair Entry is currently open for FFA members to Identify Animals by May 15th.

Reminder that animals can not be identified under both 4-H and FFA. The animal can only be listed under one organization. **Animals identified in Boone County FairEntry from April 1st through May 15th will be considered FFA animals.**

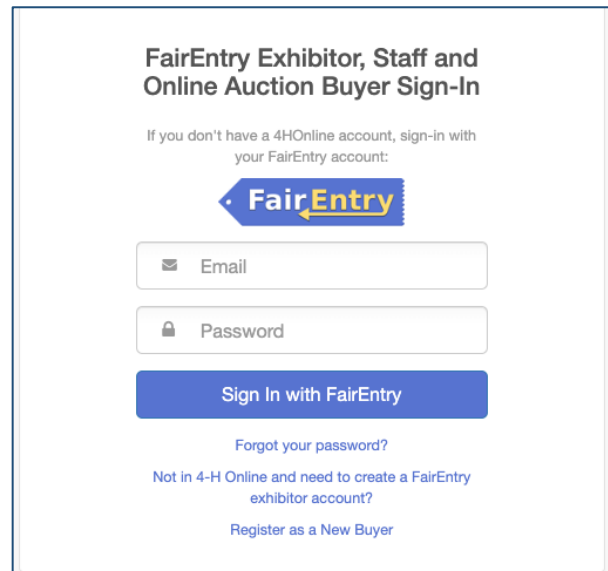

FFA members - don't forget to log back into Boone County FairEntry between May 16th and July 1st to complete your entries for the Boone County Fair.

If you have any questions regarding Fair Entry, please contact the Boone County ISU Extension and Outreach office at (515) 432-3882 or xboone@iastate.edu.

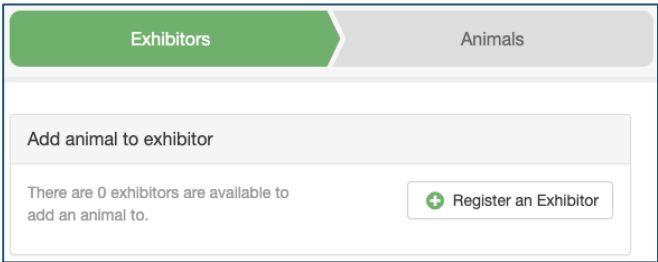

Adding animals using the Animal ID process makes those animals available to be selected during the registration and entry process for the Boone County Fair. Animal ID are due in FairEntry by May 15th.

Steps

1. Boone County FairEntry Website:
<http://boonecountyfairia.fairentry.com>
2. Login to your fair using your FairEntry account.
3. If you have made entries through FairEntry in a fair in a previous year, you have an account. You can use the "Forgot your password?" link if you have forgotten the password you used on your account.
 - If you do not already have an account in FairEntry, create a new account using the "Not in 4-H Online and need to create a FairEntry exhibitor account?" link.
4. When you have logged in, you will see the dates that Animal ID is open.
5. Click on the blue "Register an animal" button.

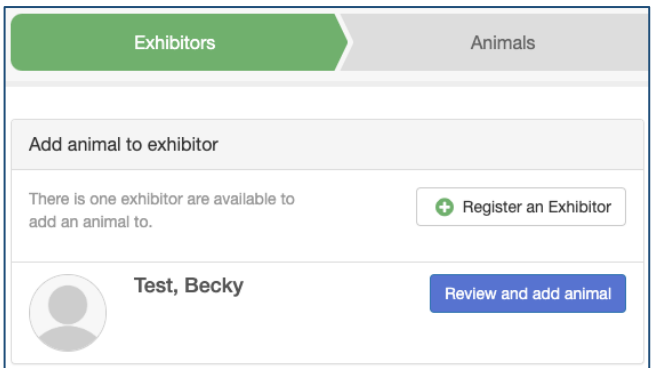

6. Select “Register an Exhibitor” to add information about the person who will be exhibiting the animal.
7. If you have a FairEntry account, or if you have previously identified animals in this fair, you may see the option to select an existing exhibitor. Otherwise, use the “Create an Exhibitor from Scratch” option.
 - Note: Please do not create two separate exhibitor accounts for the same person, even if you are enrolled in both 4-H and FFA. There should only be one exhibitor account for each person.
8. Enter all exhibitor information. This may vary by fair, but be sure all required fields are completed. Click Continue when finished.

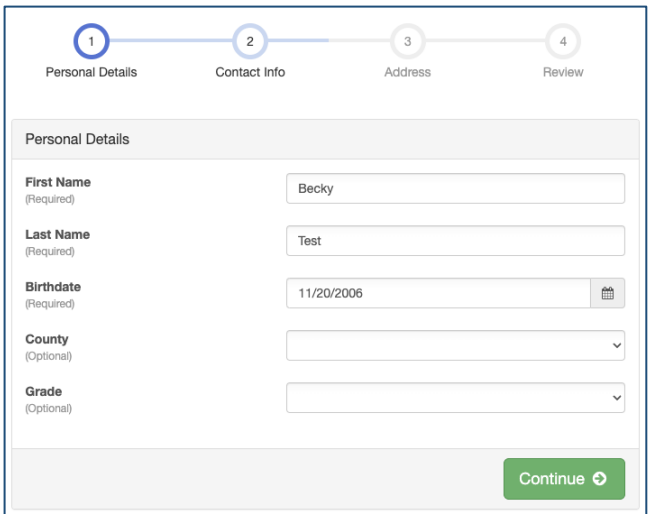

The screenshot shows a web interface with two tabs: 'Exhibitors' (active) and 'Animals'. Below the tabs is a section titled 'Add animal to exhibitor'. It contains the text 'There are 0 exhibitors are available to add an animal to.' and a green button with a plus sign and the text 'Register an Exhibitor'.

9. At this point, you can add another exhibitor record, or you can “Review and add animal” for the existing exhibitor.
 - You can enter information either by creating all the exhibitors in the family first, then identifying the animals for each one; or by identifying animals for the first exhibitor, then adding the second exhibitor and their animals, etc.

The screenshot shows the same web interface as above, but now it says 'There is one exhibitor are available to add an animal to.' Below this, there is a profile icon, the name 'Test, Becky', and a blue button labeled 'Review and add animal'.

10. Use the green “Continue” button to review, add, or edit exhibitor information. The information on the screens will vary by fair, and also whether this is a new or returning exhibitor.

The screenshot shows a progress bar at the top with four steps: 1 Personal Details, 2 Contact Info, 3 Address, and 4 Review. The 'Personal Details' section is active and contains the following fields:

- First Name** (Required): Becky
- Last Name** (Required): Test
- Birthdate** (Required): 11/20/2006
- County** (Optional): [Dropdown menu]
- Grade** (Optional): [Dropdown menu]

 A green 'Continue' button with a right arrow is at the bottom right.

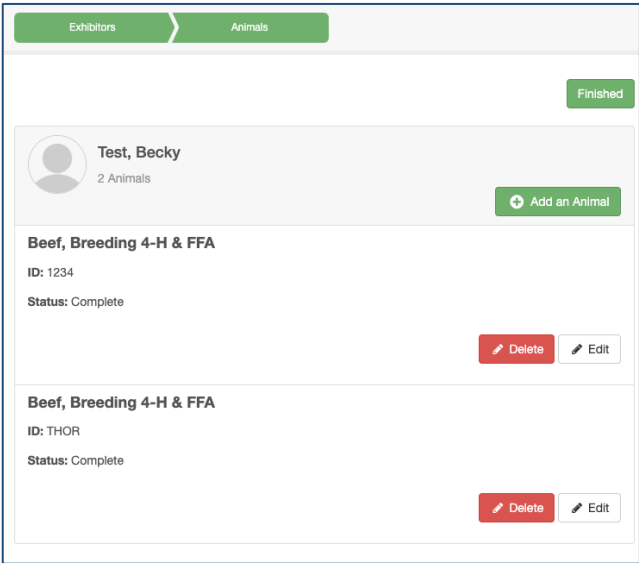

11. When you reach Step 4 (Review), and all information is correct, click Continue to Animals.

12. Select the Animal Type from the drop-down menu, then fill out all fields as requested. Fields marked with an asterisk are required. Click Finish.
 13. If there are file uploads requested or required for this animal, that screen will appear next.

- 14. Continue to add animals for this exhibitor by using the Add an Animal button. Notice that you can delete or edit animal information if you need to do that.
- 15. **When you are done with all the animals for this exhibitor**, click on the green Exhibitors tab at the top of the screen to add another exhibitor and their animals.
- 16. **When you are done with all animals for all exhibitors in this family**, use the green Finished button to exit the process and return to the original screen.

Tips

- Be sure to use the same login for Animal ID as you use for creating entries for your fair. The animals identified will only be available to exhibitors using this same login.
- While Animal ID is “Open” for your fair in FairEntry, you can login again to add more animals to your account, if you have more that need added after you log out the first time. (Note: Animal ID dates and entry dates cannot overlap, so when you log in, you will EITHER be able to identify animals, OR make entries into the fair.)
