

Livestock Release Plan

The Livestock Release plan is in place for the safety of our exhibitors and our families. The Fair Board will have paid staff and volunteers to assist with this new process. Please be patient as this is our first year with this plan and we must all work together to make things go safely and smoothly.

- Livestock Release will begin at 4:00pm on Sunday July 21st with a limited number of trailers allowed in gated area at a time.
- The livestock release line up will start north of the tracks on Argo Street (heading south)

- **Horses/Beef/Heard Building/Dairy/Sheep/Goats** - 4 trucks/trailers will be allowed at a time to enter the fairgrounds through Gate E to load and exit through Gate D and must then proceed south on Argo Street.
- **Swine** - 2 trucks/trailers will be allowed at a time to enter the fairgrounds through Gate C to load and exit through Gate C and must then proceed south on Argo Street.
- **Poultry and Rabbit** - 2 trucks/trailers will be allowed at a time to enter the fairgrounds through Gate B and load and exit through Gate B and must then proceed south on Argo Street.

- You **MUST** be in this line in order to pull into the fairgrounds to load out livestock.

IMPORTANT NOTES:

- **NO PARKING** will be allowed on Argo Street or 10th Street between Argo and Champa Street during load out time.
- Argo Street will become a one-way street headed south during load out.
- As you load out, please be as quick as possible to as we anticipate a long line, and we want it to move as quickly as possible.
- Please be cautious as you drive through the fairgrounds, as people will be walking through the grounds with items to load.
- Exhibitors are still required to clean up their stall/area of the barn as in previous years. It is encouraged this is done after the livestock are loaded and have left the fenced in area of the fairgrounds.
- If your trailer is parked in trailer parking on the far east of the fairgrounds, to get into the livestock release line, please take Champa or Curtis Street south to Industrial Park Road, then head west to Meridian Street. Go north on Meridian Street and then east on 12th street until you reach Argo Street.
