

4-H Static Exhibit Write Up Questions

For **static (non-animal)** exhibits answer the following three questions on paper or recipe cards or in another form of write-up, which can be handwritten or typed on computer, **or** recorded on a video. Photos taken as you work on your exhibit add to the write up but are not required. Photos and 4-H Poster Communication each have a special label available at the Extension Office or website <http://www.extension.iastate.edu/boone/fairinfo>

For visual art, clothing, and home improvement exhibits, also write about the elements and principles of design. Each exhibit also needs an entry tag attached with string to the exhibit.

Name _____

Division _____

Club _____

Class No. _____

Description of exhibit _____

What was/were your goals for doing this exhibit?

How did you go about working toward your goals (such as plans, processes, steps, expenses, time involved, and help from others)?

What were the most important things you learned as you worked toward your goals?

Elements and Principles of design:
