4-H Treasurer’s Record

For ________________________, 20 ____ through ________________________, 20 ____

Name of Club/Group ____________________________

Location ____________________________ (community/township)

Tax Identification Number* ____________________________

*Federal law requires financial institutions to report the amount of interest income an individual or group earns annually to the Internal Revenue Service. For your financial institution to do this, your group must have a “Employer Identification Number.” If your group has never secured such a number, you must get and complete form SS-4 Department of Treasury, Internal Revenue Service. This form (SS-4) may be obtained locally from a certified public accountant or your local financial institution. A penalty exists for noncompliance with this requirement.

A treasurer is responsible for keeping the official record of all money received and spent by this group. This book is designed to help you keep an accurate record of your group’s finances. You will want to use ink because you are keeping a permanent financial record for your group.

As treasurer you will not spend money unless the expenses are approved by the group. It is good business to deposit all money in a bank or other financial institution and pay all expenses by check. However, some groups maintain a “Petty Cash” fund. If your group has both a checking account and a petty cash fund, you must keep accurate records of both funds.

At each meeting of your group you should report:
1. amount of money spent and to whom paid,
2. balance in treasury,
3. bills to be paid.

At the end of each year the president should appoint an auditing committee to check the group’s financial records for accuracy and completeness.

This book is designed for keeping a 5-year record of receipts and expenses.

Another system is suggested on page 3 for groups who keep their checking account up-to-date and who do not want to duplicate the checking record.
Alternate Method of Accounting for Group’s Financial Resources

1. Maintain the Petty Cash Record.

2. Maintain the check “register” in your checkbook.

3. Balance your checkbook with the monthly statement from your bank.

4. At the end of each month, create the following record:

Month _____________________________, 20 ___

Petty Cash Balance (from Column 8 Petty Cash Record) (1) $__________

Checking Cash Balance (from your checkbook) (2) $__________

Subtotal (add lines 1 and 2) (3) $__________

List unpaid bills

To: Amount:

_________________________________________ (4) $__________

_________________________________________ (5) $__________

_________________________________________ (6) $__________

_________________________________________ (7) $__________

5. Total of unpaid bills (add lines 4 through 7) (8) $__________

6. Cash available (subtract unpaid bills, line 8 from line 3) (9) $__________
Instructions
Column 1: Write the date of the transaction, the date you received, spent, or transacted money.
Column 2: Write down the source of the money you received and why you received the money or to whom you disbursed the money and for what reason. If the action involved your Checking Account, use columns 3, 4, 5, and 9. If the action involved your Petty Cash Fund, use columns 6, 7, 8, and 9.

For checking
Column 3: Write down check number or a deposit number.
Column 4: Write down the amount the check is written for or the amount deposited.
Column 5: If a deposit, add the amount in Column 4 to the balance in the line above. If a check, subtract the amount in Column 4 from the balance on the line above.
Column 9: If a deposit, add the amount in Column 4 to the total balance on the line above. If a check, subtract the amount in Column 4 from the balance on the line above.

For petty cash
Column 6: Record if this is a cash deposit or a cash withdrawal.
Column 7: Write down the amount of the cash to be added or the amount of cash spent from Petty Cash.
Column 8: If a cash deposit, add the amount in Column 7 to the balance on the line above. If a cash withdrawal, subtract the amount in Column 7 from the balance on the line above.
Column 9: If a cash deposit, add the amount in Column 7 to the total balance on the line above. If a cash withdrawal, subtract the amount in Column 7 from the balance on the line above in Column 9. (As another check, the last balance in Column 5 added to the last balance in Column 8 should equal the amount in Column 9.)
