PICK WHAT INTERESTS YOU
• Find a few areas that you want to try.
• Learn from a variety of resources; adults, friends, family, online, or even the library.
• As you start, think about what you want to learn and do. Then, keep track of it so you can share it with others in a fair exhibit or a presentation.

CHOOSE A CLUB
• Maybe you know a friend who’s in 4-H, or there may be a club that’s close to home.
• Don’t know what club you want to join? Talk to someone at your county extension office, and they’ll be happy to find you a club that fits you and your adventure!

GET INVOLVED
• Contact the club leader and visit a meeting in your area.
• Don’t be shy—the club leaders and the older kids in the club will be happy to answer your questions and help you fit in.

LET THE ADVENTURE BEGIN!
• Go to your club meetings.
• Participate in the club activities.
• Learn about the things that interest YOU!
• If you really enjoy what you do in your project this year, plan to expand your horizons even more next year!

SUCCESS STORY
I was 11 years old when I started the Poultry Project to learn how to take care of my own chickens. I learned how to choose the right breed for my needs, how to feed and water them, and how to prevent common illnesses. I also got to enjoy the fresh eggs they laid! It was a fun and rewarding experience that taught me responsibility and teamwork. I highly recommend joining a 4-H club if you’re interested in learning more about animals and their care.
