

# IOWA RESOURCE COORDINATION CENTER

## HELPING IOWA LIVESTOCK FARMERS IN NEED

While the Iowa Department of Agriculture and Land Stewardship is working diligently to keep meat processing facilities operational, it's also collaborating with state and federal and public and private partners to operate a Resource Coordination Center (RCC) for Iowa livestock producers.

The RCC connects producers with industry experts, state agencies and technical specialists to explore every option to harvest livestock.

As a last resort, the RCC provides technical resources to help producers humanely euthanize and dispose of livestock.
