19. All animals must be shown by the owner except in cases of sickness, other 4-H/FFA commitments or when a member has more than one animal in a class. The exhibitor may select another Clayton County 4-H or FFA member to show his/her exhibit. This applies for all classes including champion and herd classes.
20. All animals entered in the purebred classes must be registered. The registration papers must be brought to the fair. Papers will be checked when animals are unloaded. With the following exceptions, all animals and birds must be owned by the 4-H'er, or in partnership with a family member and identified with an individual 4-H'er. When registration papers are involved (*e.g.*, purebred beef heifer) the papers must be in the 4-H'er's name or show a logical family relationship. 21. **Clayton County Share-a-Heifer Agreement:** The objective of the share-a-heifer project agreement is to allow 4-H & FFA members to care for and exhibit a registered breeding beef without having to transfer registration papers. The number of showmanship divisions vary by department (see class descriptions in each department). Exhibitors who have won the junior and intermediate divisions in previous years are ineligible to compete in that division. A previous winner of junior and intermediate showmanship may advance to the next level of competition. Previous senior showmanship class winners are still eligible to compete. Exhibitors must use their own animal in the showmanship classes.
23. Entries must receive a blue ribbon to be considered for champion or reserve champion.
24. All animals must come to the show arena in order to receive a ribbon placing. No judging will be done in the barn, except for other animals and some poultry classes.
25. Electric power washers are not allowed to be used on the fairgrounds.
26. Livestock trailers cannot be parked on the grounds during the fair. On Thursday all livestock trailers must unload in the proper locations. After unloading livestock all trailers must exit the fairgrounds no later than 2 pm. At no time is there to be an unattended trailer parked north of Barn E or the Schulte Swine & Sheep Complex due to the sewer. If storage is needed for hay or straw, a club or chapter will be allowed only the trailers designated by the fair board. Trailer permits will be issued after 2:00 p.m. on Thursday, August 3.
27. Stalls, pens, cages and barn alleys must be kept clean at all times. **Bedding needs to be straw or wood products.** No corn stalks or paper products are to be used for bedding in the livestock barns. Wood shavings are preferred.

28. It is the responsibility of each 4-H club and FFA chapter assigned to a specific barn to keep the manure hauled from that barn from Thursday, August 3 through the completion of the sale on Monday, August 7.
29. Following the fair, it is each club's and chapter's responsibility to clean the area in the barns used to stall livestock exhibited including rabbit and poultry area by their club or chapter members. The manure must be hauled to the manure bunkers or areas designated by the fair board. There will be NO cleaning with skid loaders, tractors, trucks, etc. on Sunday night or Monday morning during the sale. In the Schulte Complex there will be no cleaning or pen deconstruction during the sale on Monday. Animals stalled in Schulte Complex must remain bedded until final exiting of the fair. Clubs housed in "sale stall area" cannot clean until late afternoon on Monday. Any club or chapter who fails to clean their area prior to Wednesday, August 10 will forfeit all premiums won by members of their club or chapter.
30. **All market animals will be considered as selling on Monday unless exhibitor informs Extension Staff by Saturday at 2 p.m.**

32. All youth selling livestock in the sale should wear appropriate attire such as a 4-H or FFA shirt and blue jeans. Youth must wear closed toe shoes while in the sale arena – no sandals or flip flops.
33. Exhibitors are responsible to see that their animals are loaded for transport post sale.
34. All market beef, commercial beef females, market sheep and market goats will be officially weighed as they come to the fair on Thursday. Swine will be weighed on Wednesday as they come to the fair. This weight will be also used as the selling weight (market beef, swine, market sheep, and market goats) for the sale on Monday.
35. A sales commission of 2% will be charged on all livestock sold at the 4-H/FFA Livestock Auction. The money will go into the Extension Operating fund.
36. Premiums won in the herdsmanship contest will be paid to the club or chapter.
37. There will be no entry fees for the 2023 fair.
38. Exhibitors may substitute animals, due to health-related conditions, provided the substituted animal is weighed and/or is enrolled in the 4-H online system or listed on their 4H106 form on file at the Extension Office. A written statement must be provided by a licensed veterinarian on the health of the animal.
39. Lactating cows and dairy goats in milk will be released after the dairy show on Friday. Exhibitors will inform Extension staff of their intention to remove their cows and **must** obtain a trailer pass to come onto the grounds. Exhibitors will have 30 minutes to load and leave. Cows must be off the grounds by 11:00 pm. Milk cows and goats do have the option to stay the entire fair.

Deceased Animals Policy at Clayton County Fair Grounds During County Fair

This policy is meant to describe the order of events should an animal exhibit die on the premises of the Clayton County Fair Grounds during the 4-H/FFA Clayton County Fair.

- 1) Any death of an animal exhibit that occurs on the fairgrounds during the Clayton County Fair should be reported to Clayton County Extension officials, Fair Board officials and/or to the Fair Veterinarian immediately. If the Fair Veterinarian is not accessible, the Clayton County Extension or Fair Board officials will notify the Fair Veterinarian immediately. All animals that die on the premises of the Clayton County Fairgrounds will be examined by the Fair Veterinarian prior to removal. The owner may choose, at owner's expense, to have another veterinarian present during the postmortem examination, however, the Fair Veterinarian will be the primary veterinarian performing the investigation, unless otherwise determined by Fair Veterinarian.
- 2) The Fair Veterinarian will examine the deceased animal in the situation the deceased animal was found, whenever possible. The deceased animal should not be moved or altered, as this is part of the post-mortem examination and could hold valuable information regarding the cause of death. Appropriate measure can be taken to hide or cover-up the deceased animal from the public; this shall be aided by Clayton County Extension or Fair Board officials/Club Leaders/etc.
- 3) Examination of the deceased shall include any or all of the following, as determined by the Fair Veterinarian:
 - a. Fair Veterinarian will gather information from exhibitor/owner/witnesses that may have information pertinent to the animal's potential cause of death.
 - b. Postmortem visual examination by the Fair Veterinarian of the deceased will be performed in the situation/environment that the animal was found. If Fair Veterinarian approves, photographic documentation of the situation may suffice if the animal must be moved, prior to Fair Veterinarian arrival.
 - c. Post-mortem necropsy (animal autopsy) of the deceased may be performed by the Fair Veterinarian to examine internal organs and tissues to help further determine the cause of death. Location of this procedure will be determined by the Fair Veterinarian and may take place on Fair Grounds or at another location that is agreed upon by Fair Veterinarian/Owner/Extension/Fair Board.
 - d. Post-mortem necropsy tissue collection may be performed by the Fair Veterinarian and sent to a veterinary laboratory for further testing to identify potential infectious and/or contagious causes of death. It is important to identify, when determined necessary, the causative agent(s) responsible for the animal's death, as other susceptible animals may have been exposed to the infectious or contagious agent.
 - e. Fees associated with the postmortem procedure will be determined by the Fair Veterinarian and the deceased animal's owner will be responsible for payment to the Fair Veterinarian for services and fees incurred within 30 days of service.
- 4) After postmortem examination is complete, the Fair Veterinarian, Owner, Clayton County Extension officials and Fair Board officials will aid and determine the best route of disposal of the deceased carcass/body.
- 5) After postmortem examination and/or after veterinary laboratory testing results are reported, the Fair Veterinarian will determine whether further notification or actions regarding potential exposure to a suspected or identified infectious and/or contagious disease should be disseminated to additional exhibitors/animal owners, who's exhibit(s)/animal(s) may have been exposed to a potential infectious and/or contagious disease.
- 6) After postmortem examination is complete, a thorough cleaning and disinfection of the housing of the deceased may be needed. The Fair Veterinarian will recommend an appropriate disinfectant for this procedure, should an infectious or contagious agent be suspected in the cause of death. The cleaning procedure will be the responsibility of the deceased's exhibitor/owner.
- 7) Any additional information gathering, animal examination, animal testing, tissue or blood testing, communication with other veterinarians or animal health officials will be at the discretion of the Fair Veterinarian when investigating and evaluating a situation related to an animal that has died or shown infectious/contagious disease at the Clayton County Fair Grounds during the Clayton County 4-H/FFA fair.
