

Extension District Tax Asking Limits

cwh 11.7.2016

All Extension Districts have a cap on the tax dollars they can receive in each fiscal year, by Iowa Code. Every district has a set dollar cap based on where they fit in the population bracket. The question is whether your district is **ALSO** capped by the levy rate cap, or in other words, a double cap. The levy cap is a function of the aggregate taxable valuation of the District. The property tax revenue possible in any one year is the LOWER of the two caps, the dollar cap, or the levy rate cap.

Lower of These Two Caps: The Levy Cap -or- the Yearly Dollar Cap

CALCULATION OF YOUR CAP:

To determine the maximum property tax revenue dollars available for the Extension Education Fund, take the aggregate property valuation available via your county auditor on about January 1st each year, times the levy rate maximum per \$1,000 of valuation. Compare to the chart to determine if the district has a single cap, or if the double cap is in effect.
