Prepared by Lee H. Kilmer, Extension Dairy Specialist, 123 Kildee Hall, Iowa State University, Ames, IA 50011

Herds consisting of more than one breed and having official herd averages for each of these breeds are included in the calculation of each individual breed average, but are only counted as one herd when calculating the averages for all herds. Consequently, the "all herds" total number of herds is less than the sum of the number of individual breed herds. Values presented are simple averages for breed strings or herds and are weighted according to the number of cows in each. Minimum 10.0 cows per breed string or herd.

...and justice for all

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, and marital or family status. (Not all prohibited biases apply to all programs.) Many materials can be made available in alternative formats for ADA clients. To file a complaint of discrimination, write USDA, Office of Civil Rights, Room 326-W, Whitten Building, 14th and Independence Avenue, SW, Washington, DC 20250-9419 or call 202-720-5964.

Cooperative Extension Service, Iowa State University of Science and Technology, and the United States Department of Agriculture cooperating. Gerald A. Miller, interim director, Ames, Iowa. Distributed in furtherance of the Acts of Congress of May 8 and June 30, 1914.
