Hello West Nishna Clover Kids families! 2020 – 2021 is my fourth year as WNCK leader and I’m excited to bring new activities to the club this year! My goal is to prepare your clover for “big kids” 4-H, have some fun and learn a few things along the way. As a 4-H alumni, I love how the time we spend together as a club can make a huge impact on clovers knowledge and confidence for the rest of their life.

Meetings: Meetings are tentatively scheduled the FIRST SUNDAY each month from 3pm – 4pm at the Oakland Community Building. There will be some months the day, time and location may change. Watch our Facebook page for updates and I will text updates.

Masks are not required, but optional if you feel more comfortable. Social distancing will be practiced. If you are more comfortable attending meetings virtually, please let me know and we can coordinate getting you crafting supplies to participate along with us. Most importantly, if your child or a member of your family isn’t feeling well, please stay home. Clover Kids 4-H is fun, but certainly not worth risking everyone’s health.

The Extension office requires clover clubs have a 1:6 ratio of adults to kids. If you are available to stay and help that would be awesome! Helpers not only meet the extension office’s requirement, but extra hands also help the meeting run smooth and are more enjoyable for everyone.

During this year’s outings, I ask that parents attend with their child. I have some fun stuff planned and I would prefer if parents attended to guarantee good behaviors and safety! We want to represent WNCK well in the community 😊

Older or younger siblings are welcome to come to the meetings as well and outings. They can participate in the snack and activity if there are enough supplies.

Clovers show and tell! This year clovers will present show and tell items to the club. On specific months, see agenda, a grade will present. Clovers can bring TWO items from home to share. They could bring a family photo, an art project, a family pet or a fun treasure.

Talk with your clover about the presentation, remind them to have good eye contact when presenting, speak loudly so we can hear and give them some talking points. This isn’t a college public speaking class, but they should become comfortable speaking clearly and confidently in front of a group of people. If your clover doesn’t attend the month they are designated to present, we will catch them the next meeting.

Host: Host families are responsible for bringing a light, pre-packed snack and individual drink for 12 people. I have randomly assigned families to a month. If you are unable to host, please let me know.

Activities: I like to have a variety of projects for the kids to experience; community services, arts, woodworking, cooking, livestock.

Leader Contact: If you ever have any questions or concerns, please don’t hesitate to call me. The fastest way to get a response is text, but you are welcome to Facebook message or email me as well. I’m excited to see my returning clovers and get to know our new members!

It’s going to be a great year!
