

# Old MacDonald has a farm...

And on the farm there is a welcome center that encourages adventure and discovery. Visitors can watch a movie from the amphitheater or venture on to learn about the new attractions

As the story unfolds, visitors wind their way through a landscape of natural and historical features. Native prairie and trees lign the path and a playful garden and mural promote engaging learning opportunities.

And on the farm there is a petting zoo that inspires interaction of all ages with farm animals. Families feed and care for animals of all sizes and assist in farm chores. As the chores wrap up, the adventure continues

And on the farm there is an orchard and new residential agriculture education for all ages. Families can grow on a multitude of different materials and explore what best fits their home and interest.

And on the farm there is a creative play space that promotes play for all. The space offers room for a family picnic, environmental learning, and wildlife exploration.

And on the farm there is a duck pond for a leisurely stroll and interaction with a multitude of ducks in their own habitat. Here a quack, there a quack, everywhere a quack quack---
