

FORESTRY EXTENSION NOTES

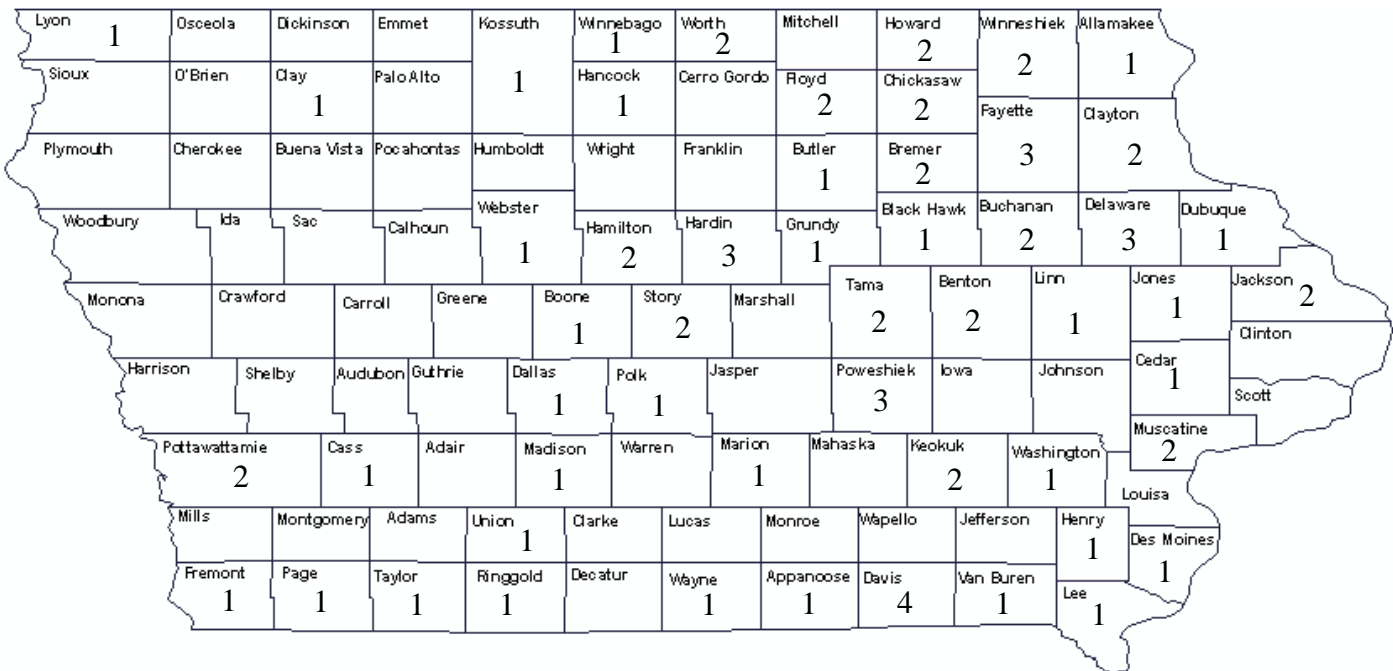

DIRECTORY OF SAWMILLS IN IOWA

ISU FORESTRY EXTENSION

This directory may be used as a guide by those who have timber to sell, who want logs sawn, or who want to buy logs, lumber, or other wood products.

The 48 counties for which mills are listed are arranged alphabetically in the directory. Mills are cited alphabetically by firm or surname of the owner within the county in which the mill is located. A total of 79 sawmills are included; the address and telephone number (if available) are given. The Iowa map shown below indicates the number of mills in each county. An asterisk has been placed after the names of those mills that have a dry kiln.

The major source of information for revising this directory was the Bureau of Forestry of the Iowa Department of Natural Resources; in addition, requests for inclusion by private citizens have been honored. This directory does not claim to be complete; any omissions are strictly unintentional.
