Pesticide Training Reminders

Private pesticide applicators, don't forget to attend your required annual two-hour session of continuing education courses if you prefer to receive training during your renewal period. It is vital to stay on top of your training and have the opportunity to attend one of two Zoom meetings to meet your certification requirements. Click on the following links to access the information. I highly advise you to read through the information in one of the following links to understand the requirements of participating in actual training.

Feb 21, 2022 | 4 p.m.
April 5, 2022 | 4 p.m.

Finally, if you prefer a self-directed applicator certification expired December 31, 2020, please remember to send in your form and have the opportunity to renew your certification. We do, however, recommend completing the Zoom meeting to receive your renewal certification. More information can be found at how to renew your annual Zoom training for 2022.

Poker Fungicide Trial Results for Soybeans

A summary of the 2021 Nickel fungicide trials is now available on Statewide Evaluation of Fungicides on Soybeans in 2021.

An additional resource to consider is the Crop Protection Research’s Fungicide Efficacy for Centers of Excellence website.

Grain Bin Safety Week

February 20-26 has been designated as Grain Bin Safety Week. Take some time to read the article and learn more about the risks associated with grain bins and how to prevent accidents.

Events

Webinar: Advanced Grain Marketing (Starting March 3)

This webinar will cover the basics of grain marketing and how to manage price run-ins in uncertain times. More women are taking on the challenge of managing grain prices. Advanced Grain Marketing for Women offers insights into effective decision-making and provides strategies to help producers make informed decisions about grain prices.

Registration deadline is March 1. Please register to attend the webinar.
