IOWA GRAIN QUALITY INITIATIVE
ADVISORY COMMITTEE MEETING

Friday July 18, 2008; 10AM – 3PM
GATEWAY CENTER HOTEL, AMES, IOWA

GOAL
Much of the food versus fuel discussion has categorized the future by computation from the present production patterns or quantities, without considering the effect that sharply increased prices may have on both distribution and yield of grains. The goal of this meeting is to discuss information specifically on the logistics and quantity issues generated by the rapid growth of biofuels, then develop a program for ISU Extension through IGQI to communicate the opportunities for solution.

AGENDA
9:30 AM Coffee and rolls available
10:00 AM Welcome and introductions
College of Agriculture and Extension update (Gerald Miller)
Bioeconomy Task Force
2009 Work Plan Review (Charles Hurburgh)

10:30 AM Summary of the processing studies and other food-fuel quantity studies
GQI Studies
Feed Quantity Study from GQI (Mark Honeyman, Pete Lammers)
Discussion

12:00 Noon Lunch Break – Room 252

1:00 PM Distillers Grains Quantity and Opportunities
Ryan Sauer or Randy Ives (Hawkeye Renewables)

1:30 PM Discussion (Committee)
Training and support programs from Extension
Needs for further action on current issues, new issues
What is the key message and to whom on the logistics and quantity of feed, food and fuel ingredients
Next meeting

3:00 PM Adjourn

Times are approximate; to be adjusted as needed.
