

Price List 2020 – 2021

(effective 9/01/2020)

Test Description	Price (\$ USD)	Sample Size (g)
Near Infrared (NIR) Composition	\$5.50	500
Corn - protein, oil, starch (% at 0% or 15% moisture basis) density (g/cm ³ at 15% moisture)		
Soybeans - protein, oil fiber (% at 13% moisture)		
Seed Weight (g/1000 seeds)	\$5.00	200
Test Weight (lbs/bu)	\$3.00	1000
Thins (%kernel>20/64 in.) (Corn)	\$3.50	500
NIR or other grain analysis calibration or support services	Contact us for quote	
Contracted Services		
Amino Acid Profile by Wet Chemistry (Corn & Soybean) (University of Missouri)	\$100.00	500

Our tests are nondestructive so the largest sample size determines the need.
Samples can be returned; shipping cost (if any) will be added to the invoice.
