

Iowa County Fair KINZE Award Contest

2023 Official Rules

1. Eligibility

NO PURCHASE NECESSARY TO ENTER

This contest is open to all 4H and FFA members of all ages up to high school seniors (recent graduates). Group projects will not be accepted.

Junk in a Bucket projects will not be accepted in the KINZE Award Contest. While these projects are strongly encouraged for members interested in entry-level mechanics and welding, there is a separate contest for Junk in a Bucket projects.

2. Projects

LIMIT \$2000 SPENT FOR EACH PROJECT

NO TRACTOR RESTORATION PROJECTS WILL BE ACCEPTED

Projects shall demonstrate skill in design, mechanics, metalworking, fabrication, and/or welding. Contestants that exhibit craftsmanship, creativity, innovation, and ingenuity in their work will excel in this contest. Help from mentors is encouraged, but hiring out for jobs such as paint and technical work is strongly discouraged. It is encouraged that projects are used to prove out function. Would rather see some paint knocked off than discover contestants have not tested out their projects yet.

3. Judging Criteria

Each contestant will participate in a short interview with a panel of KINZE judges. Along with the project based criteria above, student's independence, enthusiasm, knowledge, presentation, and lessons learned will all be strong factors in judging.

4. Prizes

All prizes are cash. KINZE reserves the right to adjust the prize amounts and number of honorable mentions awarded if necessary.

Place	Amount
1st	\$ 500.00
2nd	\$ 400.00
3rd	\$ 300.00
4th	\$ 200.00
5th	\$ 100.00
Honorable Mention	\$ 50.00
