### Creating Entries

Each exhibitor can have multiple entries. One entry must be made for each item, animal, class, etc. For example, if an exhibitor is bringing 2 photographs, two entries into the photography class must be created. If an exhibitor is showing one horse or one dog in 5 events, 1 entry must be created, but all classes need to be selected. Once all entries have been created for the first exhibitor, you have the choice of creating another exhibitor in this family (and entries) or proceeding to check-out. Once you submit your entries, you cannot go back in and edit them – The Extension Office will have to go in and edit.

1. Click Add an Entry beside the correct exhibitor (if more than one has been created).

2. Click Select beside the first department (species) you wish to enter.

3. After you select a department (species), you will see a list of divisions to select from, click select.

4. Click Choose

5. Once you have selected which class to enter, click select.
