Women Managing Cattle

What is Women Managing Cattle?
More farm women in Iowa raise beef cattle than any other type of livestock or poultry. While 85% of Iowa beef farms market less than 100 head annually, the profitability of the cow/calf herd or beef feedlot impacts family finances significantly. Whether women just want to learn more about Iowa’s beef industry, or want to understand and be more involved in their family cattle business, this course offers something for everyone. Sessions cover marketing, managing land and water resources, challenges in bringing calves to market, understanding and calculating the true costs of production. Tools and resources will be provided.

Course includes 3 sessions held on:
Monday, Sept 14th
Monday, Sept 21st
Monday, Sept 28th
5:30 - 8:30 PM
(meal included)
Jackson Building
Madison County Fairgrounds
1204 W. Summit, Winterset
Cost: $50

Registration must be completed by September 7, 2015
