

## Log in to 4-H Online:

**\*\*\*May 15<sup>th</sup> ID Deadline is extended to June 1<sup>st</sup> for 2020**

Open a web browser and type in: <https://iowa.4honline.com>

## On the Iowa 4-H Youth Development Log In page:

1. Click "I have a Profile."
2. Enter family email address provided to Extension Office.
3. Enter your password.
  - If you have forgotten your password, mark "I forgot my Password."
  - Click "Send my Password." Do not close the internet window.
  - Open your email browser and find the email from 4-H Online. Locate your temporary password.
  - Return to 4-H Online and paste/type the temporary password.
4. Choose "Family" from the "Role" drop-down box.
5. Click "Log In."
  - If you had to have your password re-set, you will need to create a new password before going on. Your passwords must be a minimum of 8 characters, and must contain 2 of the 3: letters, numbers, symbols.

The **Member List** screen includes all of your family members enrolled in 4-H: members, leaders, volunteers.

Click "Edit" to the right of the member listed to go to that member's Personal Information Screen.

Locate and click on the Animals/Livestock link in the upper left.

There is a drop-down box and a list of any animals that have already been entered (there may not be any yet). Select the animal type that you want to enter and click the add button below the drop-down box.

The next screen will be a data entry screen for the species you selected (see below for examples). Note that in some species, certain selections will activate extra entry fields [Example: selecting *Registered* will in some cases show a *Breed* drop down box.]

Read the information at the top of each screen, particularly if you are considering exhibiting at the state fair. Some fields that are NOT required (bold) are actually necessary for state fair animals. For each animal entered, enter all the information requested and click the save button. **All fields in bold are required.**

**NOTICE that you have options to print the information that you entered on screen.**

- It is not necessary for you to print paper copies unless you need that information for a show that is outside of Iowa. The information that you enter in 4-H Online is available to Iowa 4-H staff, just as it is available to you.
- If you WISH to print the information on screen, you have two options:
  1. **Animal Exports (to Excel)** – Option is located on the Animal List screen, and returns all information in an Excel spreadsheet, one line per animal. Each animal type uses different fields, so if you have identified dogs and horses and llamas, you’ll export twice. This is for family info only—will not be accepted anywhere as a valid identification because it’s editable.
  2. **Print Animal Information** – This option is located at the top of each individual animal screen, and prints a paper copy of the information that is on the screen for that specific animal. If you want one for each animal, you have to open each animal’s info screen and print the form for each. This is the equivalent of the old paper ID forms, but in Iowa 4-H shows, we will always use the online data, not any paper, as identification.

**REMINDERS:**

- 🔔 **Families are not able to enter information for any weighed-in animals (mkt. beef, sheep, meat goats & swine). Those animals are entered by county staff. Refer to the Livestock Verification Help sheet for more information.**
- 🔔 **All animal ID’s must be submitted no later than May 15<sup>th</sup>, 11:59 p.m. (June 1, 11:59 p.m. for 2020)**
