Gardening In The Air, a webinar series offered by University of Illinois Extension and Iowa State University Extension. Saturday, October 9

Home Garden Tour? If you would be interested in giving Master Gardeners a tour of your home gardens, please let us know!
Helping you get your 10 hours of Master Gardener Education Requirement! (through the end of the year)

Mary Wildermuth, Master Gardener Chair

In this newsletter edition we have Carolyn LeMaster’s usual monthly column of educational opportunities. You could also look back at previous issues and find webinars etc. that would fulfill the requirement!!

Lauren Nerad has put together a list of Youtube Webinars that you can watch from home and certainly count as education hours. Topics align with the survey requests or are available on Youtube by querying Master Gardener Iowa State or any other research institution. Topics like growing tomatoes, pollinator plants etc. Here is a link to the survey request: https://iastate.qualtrics.com/jfe/form/SV_5dPWGH1KNv0g6iv

Youtube.com has a great selection of webinars that you can use, learn and enjoy from!!

The Master Gardener Advisory Committee met earlier this week to discuss Educational Options for the Membership and came up with the following list of in person seminars at the Extension Office. These are currently being scheduled and are provided as an additional opportunity to secure the annual 10 hour educational requirement.

**Wednesday, October 13, 2021** (6-8pm) – Pollinators and

**Sunday, October 17, 2021** (1-3pm) – Trees Forever

**Saturday Morning, October 30, 2021** (9-11am) Houseplant Propagation and Care

**Tuesday, November 9, 2021**  General Meeting and Educational Program (6:30 - 8:30pm) How do I know? Criteria for judging County Fair flowers and arrangements.
Air Plants Craze!
By: Erin Parks, Master Gardener Intern

Air Plants have grown in popularity for house plant enthusiasts! Even I have added an air plant to by indoor plant area (exhibit A: My office wall)!

So... what are they?

Air plants are actually called Tillandsias, which are a part of the Bromeliaceae or Bromeliad species. They have also been called as Epiphytes, as they do not need to have soil to grow. The air plant is often found in the jungles, mountain tops, and deserts, of Central and South America, and Mexico and the southern United States in North America.

Did you know... Spanish Moss is a type of air plant!

Air plants are a variety of Epiphytes, meaning they need no soil to develop. They do call for a platform to commence growing. These plants are not parasitic and use their host for a method of support. The plant receives its nutrition within the moisture and dirt fibers drifting in the air. The roots are mainly implemented as a means of attaching itself to the supporting subject.

Looking after these kinds of plants is reasonably simple. Frequent watering, beneficial air circulation and brilliant filtered light are very important aspects for their well-being. Immerse your plants once weekly in water for approximately 20 minutes or you can mist them all completely 2-3 times each week. If they live in a container or dish, enable them Three or four hours of drying time prior to relocating them back with their storage containers. Air plants take in the carbon monox-
Air Plants... Continued
By: Erin Parks, Master Gardener Intern

ide from the air at night time rather than the day time. If the plant is damp, it can't breathe effectively. Based on this info, it's always best to water in the morning. Make certain every container employed allow for ample air flow. Under no circumstances leave your plants in direct sunlight for extended intervals, they like filtered or indirect light.

Air plants flower once in their lives, but will develop pups or offspring during this period. Pups usually stays linked to the parent or could be segregated using a delicate twist/pull action at the bottom of the plant after the pup is one-third to one-half the length of the parent. In the event that the pups stay connected, merely eliminate the parent leaves when they wither and die. This will allow the pups to speedily fill the bare area.

Air Plants could be grown just about anywhere. They may be added to driftwood, aged picture frames, seashells, or pottery. Make absolutely certain to not ever affix those to pressure treated wood, copper objects or copper cable because this will destroy your plant. Generally there are reasonably priced specific glues you may buy if you choose to attach them all.

Mary Wildermuth, Chair called the board meeting to order via zoom. Board members in attendance were: Ron Jensen, Rachel Horner Brackett, Kathy Haltmeyer, Ed Moreno and Carolyn LeMaster.

A memorial remembrance for Emma Mae Pruitt was discussed along with how best to recognize active members who pass away. Rick Crooks and Emma Mae Pruitt both within the past month. Kathy Haltmeyer moved to name the Master Gardener Scholarship in honor of Emma Mae. To be known as the Emma Mae Pruitt Master Gardener Scholarship for Muscatine County. Ron Jensen seconded with all ayes.

There was much discussion about remembering Master Gardeners who have passed away. It was decided that a tree would be placed in the Muscatine Arboretum with a plaque noting the Master Gardeners. Kathy Haltmeyer will research the how to’s for obtaining a tree, cost and upkeep of the tree and the plaque. She will bring this information to our next meeting. A suggested $25 amount per person from the budget was discussed with the option of members contributing to the memorial tree.

It was noted that the treasury at the current time has a balance of $2899.90 with a small amount of $ returned by MCC for -----Donath’s scholarship. Lauren will send that $120.00 plus to Iowa State for -----Donath. Rachel Horner Brackett volunteered to be on the Scholarship Committee for this year.

There are two open board seats. Several names were suggested as potential new board members. Ron Jensen will chair the Nominating Committee and Ed Moreno will assist him. Mentioned names were Terri Hanson and Brandy Olson.

The board will elect a new treasurer and secretary when the board convenes to elect the new directors. In addition all officer seats may be up for reelection or election.

Mary noted that Lynn Pruitt will be bringing a selection of gardening magazines to the Extension Office for donation to whomever would like to take any or all of them.

The board will convene when Ron and Ed have secured nominations for the vacant director positions and Kathy has information on the memorial tree project.

Meeting adjourned by Mary Wildermuth at 6:40 p.m.
Muscatine County Master Gardener Board Meeting
Minutes from April 20, 2021

Mary Wildermuth, Chair, called the board meeting to order, via Zoom at 5:00pm. Board members in attendance were: Mary Wildermuth, Ron Jensen, Rachel Horner Brackett, Kathy Halmeyer, Ed Moreno, Terri Hanson, Brandy Olsen, Carolyn LeMaster, and Lauren Nerad - Extension.

Mary welcomed Brandy Olsen and Terri Hanson to the Master Gardener Board. Terri Hanson was elected Secretary/ Treasurer of the Board. Motion was made by Rachel Horner Brackett to approve the February Board minutes, 2nd by Ed Moreno. It was approved by all.

It was decided that when a Master Gardener passes away, a brick in their honor, will be placed around the flag pole at the Muscatine Aboretum. The brick will be inscribed with their name and the year of their becoming a Master Gardener. Motion was made by Ed Moreno, 2nd by Terri Hanson. It was approved by all.

The Zoo Garden memorial for Emma Mae Pruitt will be announced in the MG Newsletter, to let people know that they may contribute to purchase a metal sculpture for the garden in her memory. Motion was made by Ron Jensen, 2nd by Ed Moreno. It was approved by all.

Mary will make some calls about a Plant Sale this Spring. We need a person to organize volunteers for a table at the Farmer’s Market this summer.

The break downs for the Growing Together Mini Grants were, $450 to the Zion Lutheran Church and $910 to the Church of Christ donation gardens.

Lauren Nerad, Extension, would like some volunteers to answer questions they get on plants, trees and insects. Master Gardeners could get back to the people with answers by phone or email. On Tuesday, April 27 at 6:00 pm, Charles Rickey will give a guided tour of the Muscatine Aboretum, showing us all the flowering trees.

On May 10, Hilltop Greenhouse in Illinois City, will offer a 10% discount to Master Gardeners who wear their MG badge when they buy plants. Heather Hurroun has invited us to stop and visit in her yard afterwards. Muscatine Branching Out has their spring tree sale on Thursday, May 13 from 4:00 to 6:00pm in the Discovery Center parking lot. It has been sold out. They want to do a fall sale also.

The next board meeting will be in person, on May 11, at 6:30pm at the Extension Office. The meeting was adjourned at 6:00pm. Motion was made by Kathy Halmeyer, 2nd by Brandy Olsen. It was approved by all.

Terri Hanson    Secretary/Treasurer
Muscantine County Master Gardener Board Meeting
Minutes from August 10th, 2021

Mary Wildermuth, chair, called the board meeting to order at 6:00 pm. Board members in attendance were: Mary Wildermuth, Kathy Haltmeyer, Rachel Honer Brackett, Ed Moreno, Carolyn LeMaster, Terri Hanson, and Lauren Nerad - Extension.

A motion was made by Kathy H to approve the April Board Minutes. 2nd by Ed M. It was approved by all. A motion was made by Rachel H to approve the July 31, Treasurer's Report. 2nd by Kathy H. It was approved by all. The Balance on July 31, 2021 was $2,762.90.

The Memorial Bricks are $50 each. The bricks will have their name and the year that they became a Master Gardener. Kathy H will arrange to get the 2 that we need for Emma Mae and Rick.

There are 4 new MG trainees and 3 new Pro-Horticulturists in training this fall. It is with online training from Sept - December. It will be done at your own pace lessons.

Dana Allen, K-12 Outreach Educator with Muscatine County Extension, is starting a new youth program, World of Gardening, for 1st - 9th grades. She would like volunteers to help with this.

Carolyn L has gone to the Farmer’s Market a few times and set up a MG table. She said that we need a new tablecloth to fit our table set up.

Lauren has asked the MGs to please turn in their volunteer and education hours.

The Garden Tours on July 7, 2021, had an average of 10 people at the 6 gardens.

Muscantine Branching Out is having their Fall Tree Sale on Thursday Oct. 7, 2021 at Discovery Park.

The MG general meeting will be Sept. 14, 2021 at 6:30 at the Extension Office. Bring Snacks! Mary and Lauren will put together a survey for future meeting topics.

The next Board meeting is October 12, 2021.

Kathy H made a motion to adjourn the meeting at 6:55pm, 2nd by Rachel H. It was approved by all.

Terri Hanson  Secretary/Treasurer

Autumn Blossoms and Foliage
at the Pruitt’s

What a Beautiful Time of the Year in Iowa!

Featuring sedum, marigolds, asters, and a maple tree
Webinars for Education Hours

If you’re looking to use webinars to complete your education hours look no further than these resources here! I took topics from the survey and found research-based webinars from Extension Offices around the United States. I hope you enjoy them! **Click on the underlined red text in order to be taken to each video.**

I found two all purpose guides to growing tomatoes. Illinois Extension Local Foods and Small Farms has an excellent webinar which is geared specifically at production tomatoes rather than home horticulture, however the same principals apply.

**University of Arizona Cooperative Extension**

**“Tomatoes Galore! Webinar”**

Duration: 1 hour and 2 minutes

The information that we want to share is what we have learned in our first two years of growing tomatoes in our plot in the community garden. Hopefully, this information will be helpful to first time gardeners and maybe even experienced gardeners can pick up some tips. Jane can Sandy will cover basic types of tomatoes, including indeterminate, determinate, heirloom and hybrid varieties, and their favorite varieties: Tomatoes: Beefsteak, Lemon Boy, Big Boy, Celebrity, Summer Set, and Yellow Pear Cherry. You will learn about their planting techniques, watering schedule, Walls of Water, types of tomato cages, using tulle fabric cover and companion plants.

**Illinois Extension Local Foods and Small Farms**

**“ABC’s of Tomato Production”**

Duration: 1 hour and 3 minutes

Customers are looking for high quality, great tasting tomatoes. Understanding basic production practices, including variety selection, integrated pest management, and fertility, can help to improve your overall yields and sales.

**Siouxland Garden Show**

**“Landscaping Around Established Trees”**

Duration: 57 minutes

A virtual session of the 2020 Siouxland Garden Show hosted by Nebraska Extension's Kathleen Cue on landscaping around established trees. The session goes over the do's and don'ts for happy trees and successful landscapes.
Siouxland Garden Show
“Winter Care of Apple and Cherry Trees”
Duration: 1 hour and 21 minutes
Learn all about care for your apple and cherry trees. Plenty of topics will be discussed including: Proper pruning methods and forms for apple and cherry trees. How pruning impacts tree vigor, flowering and pest control. What fruit tree forms work best for home gardeners. Renovating old trees. The importance of thinning fruit. How much should be left on a tree. Common disease and insect issues and how to control them. Can quality fruit be grown without a good spray schedule?

University of Florida Institute of Food & Agricultural Sciences (IFAS)
“Home Hydroponics Day 1”
Duration: 1 hour and 5 minutes
Recording of Day 1 of the Home Hydroponics Workshop on Zoom and Facebook Live. First presenter is Hannah Wooten with UF/IFAS Extension in Orange Co. Florida explaining Set It And Forget It Hydroponics. Second speaker is Maxine Hunter with UF/IFAS Extension in Marion Co. explain the basics of aquaponics.

University of Florida Institute of Food & Agricultural Sciences (IFAS)
“Home Hydroponics Day 2 Microgreens”
Duration: 1 hour and 10 minutes
First presenter is Dr. John Roberts with UF/IFAS Extension in Orange Co. Florida explaining how to grow microgreens hydroponically. Second speaker is Dr. William Lester with UF/IFAS Extension in Hernando Co. explaining how to identify and control common insect pests in hydroponic setups.

Oklahoma Gardening
“Preserving Seeds: Seed Bank at ISU”
Duration: 15 minutes
In Ames, Iowa we visit the USDA Plant Introduction station to see how they have been conserving plant genetic resources for over seventy years. To find more information about USDA and NCRPIS, check out their website: www.ars.usda.gov
Webinars for Education Hours Cont...

**Become an EMTree**

**“Common Plant Problems in Iowa, What Resources are Out There?”**

Duration: 46 minutes

The third and final virtual workshop in the Become an EMTree series focused on identifying, preventing and treating disease and insect issues in trees and shrubs. Join us to learn about resources that can help you to keep your plants healthy! We will show case resources to learn how to observe plants, prevent and investigate plant problems.

**Siouxland Garden Show**

**“Lawn Care 101”**

Duration: 1 hour

A virtual session of the 2020 Siouxland Garden Show hosted by Nebraska Extension's John Fech on the basics of lawn care including fertilizer, watering and weed control.

**University of Illinois Extension**

**“Live With the Horticulturalists: All About Houseplants”**

Duration: 1 hour and 11 minutes

Houseplants have been a mainstay of many, but the last year has brought these into more homes than ever before! Join us this Thursday LIVE as the Horticulturists answer your questions (and even share a demonstration or two) from houseplant maintenance, repotting, repairing, dividing, and more.

**U of I Extension CFIV**

**“Jumping Worms”**

Duration: 1 hour and 5 minutes

Christopher Evans, University of Illinois Extension Forester, gives information and an update on the spread of the invasive jumping worms.
University of Illinois Extension
“Planting for Pollinators”
Duration: 58 minutes
How can you support #pollinators in your yard? Join Illinois Extension Educator Erin Garrett to learn what types of pollinators you can attract to your yard. Learn how to find and choose the right native plant to attract butterflies, native bees, moths, and more!

Polk County Soil & Water Conservation
“Rain Gardens 101”
Duration: 1 hour and 18 minutes
Rain Gardens 101 with Julie Perreault, Polk County Soil and Water Conservation District

University of Illinois Extension
“Terrific Tropicals! Keeping Your Indoor Plants Happy”
Duration: 1 hour and 10 minutes
Horticulture Educator Austin Little and guest speaker SIUC Plant Biology Greenhouse Gardener Clint Chamsness discuss how to keep indoor tropical plants happy and healthy over the winter months. **Someone in the survey mentioned they were interested in air plants. He talks about air plants 26 minutes into the video**

Rutgers
“Caring for Houseplants in Fall & Winter”
Duration: 1 hour and 7 minutes
Soon, we will be bringing our tropical and house plants back into our homes for a long winter snooze. Gene Cranmer will discuss what to do to prepare your houseplants to come back indoors and how to keep them healthy throughout the winter.
Friendly Reminder: 2021 Hours!

Just a reminder that in 2021 the Master Gardener hour requirements have returned to normal – completion of 20 volunteer hours and 10 continuing education hours. If you have already completed hours but haven’t had a chance to enter them into the volunteer reporting system, make sure to get them reported. It’s easier to enter hours as you go rather than all at once at the end of the year. Thank you all for all that you do! [https://mastergardenerhours.hort.iastate.edu/](https://mastergardenerhours.hort.iastate.edu/)

DON'T FORGET TO ENTER YOUR HOURS!
