

# Emerald Ash Borer:

***Confirmed in over half of Iowa's counties. Is Monona Co. next?***

Monona County Extension in Onawa will host an informational meeting concerning Emerald Ash Borer (EAB), an exotic, destructive insect of ash trees.

## October 9, 2017

**ISU Extension & Outreach - Monona County**

**119 Iowa Avenue**

**Onawa, Iowa 51040**

## 2:00 - 3:30 pm Public Meeting

**For Homeowners and other concerned citizens**

**PLEASE RSVP BY OCTOBER 8 AT 712-423-2175**

**If you have questions, please call ISU Extension and Outreach Monona County at 712-423-2175 or email: Melissa Beermann at [mbeerman@iastate.edu](mailto:mbeerman@iastate.edu)**

### You will learn:

- How to identify EAB
- How to identify an ash tree
- Signs of EAB infestation
- Is my tree a candidate for treatment?
- EAB treatment options
- How spread of EAB is being restricted
- Ash tree replacement options

### Presented by:

**Dr. Donald Lewis**

Iowa State University  
Professor & Extension Entomologist

**Mike Kintner**

EAB Coordinator with Iowa Department of Agriculture & Land Stewardship (IDALS)

**Lindsey Barney**

District Forester with Iowa DNR

The **emerald ash borer (EAB)** is a small beetle that kills all species of ash trees, including green, white, black and blue. This federally regulated insect has been found in fifty-one Iowa counties and continues to spread across the state.
