

4-H Youth Experiences in Science Project

Grades K-2

Description and Format: The 4-H Youth Experiences in Science Project is an exciting, hands-on, non-formal science experience for five to eight year olds. Originally designed for teens facilitating afterschool experiences, this program can be used by any teacher or club leader to teach the following subjects:

- **Snails**
- **Bubbles**
- **Collecting**
- **Kitchen Science**
- **Worms**
- **Recycling**
- **Energy**

The 4-H Youth Experience in Science Project can be borrowed from the Scott County Extension office for one month.
