

Communications Toolkit

Target Audience: Grades 6 - 12

Fun Skill-building Activities to Do with Kids

Description: Communications Toolkit was developed for those who work with youth 6th grade and up, although many of the activities can be modified for use with younger audiences. In the toolkit you will find information, activities and resources that will help kids build on their skills in vocal expression and public speaking, video, media relations, graphic design and writing.

Life Skills:

- communicate and express themselves effectively
- judge the value of information for a given purpose
- ask questions to gain more information
- organize and plan for a final product
- work as a team member
- build personal awareness and self-esteem
- manage feelings
