| Information | Program Description |
|------------------------|---|
| Kindergarten-5th Grade | Fun lessons and activities to learn about science in agriculture. |
| Curriculum Format | <p>Each lesson can be presented in 45-60 minutes.</p> <p>Teaching Guide with complete instructions is provided.</p> <p>Teaching Kit with materials needed to present lessons is provided. User may need to provide standard classroom supplies (pencils, scissors, glue). If a lesson requires perishable items (e.g. milk), user is responsible for these purchases.</p> |

| Lesson | Overview |
|-------------------------------------|---|
| One: We are Producers and Consumers | Students define and give examples of consumers and producers and learn how they and their families fulfill the roles of consumers and producers at home and in their community. |
| Two: Tasty Testing | Students practice consumer decision-making as they evaluate products according to certain criteria. |
| Three: Pasta Jewels | Students conduct a business simulation as they produce a product according to company rules. |
| Four: Food Origins | Students develop a working vocabulary of food and food sources. |
| Five: Farm to Table | Students learn how their lives depend on agriculture and identify steps in the food system. |
| Six: Corn is Maize | Students learn about different products that contain corn, its byproducts and the impact corn has on their daily lives. |
