ABOUT CLOVER KIDS:
Clover Kids is a once-a-month after-school program for youth in first through third grade.
Provided by Iowa State University Extension and Outreach, Clover Kids is a fun, hands-on, STEM (science, technology, engineering and mathematics) focused program that introduces youth to a variety of 4-H concepts and project areas.
Participants will explore healthy living, the environment, social skills, plants and animals, computer skills, science and technology, personality development and expressive arts.
Youth explore the world through a do-reflect-apply experiential education approach that encourages cooperation, creativity and fun while learning.

NEW THIS YEAR!
Clover Kids is now open to 1st graders!

Clover Kids will be offered once a month, October 2018 through April 2019, immediately after school. Clover Kid sessions are limited to the first 25 youth registered per location.

WHAT CAN YOUR CHILD EXPECT TO DO IN CLOVER KIDS?

→ Explore STEM through simple hands-on learning experiences.
   
   Question: Why the emphasis on STEM?
   Answer: For more than a century, 4-H engaged youth in science, technology, engineering and mathematics (STEM). This traditionally meant a solid focus on agriculture science, electricity, mechanics, entrepreneurship and natural sciences. However, today, 4-H has grown to include rocketry, robotics, biofuels, renewable energy, computer science, environmental science and much more!

→ Strengthen motor skills through a variety of arts and crafts.
→ Have fun while learning and playing cooperative games.
→ Make friends and learn to work positively in a group setting.
→ Learn from and work with older youth who are members of 4-H.
→ Participate in the Sioux County Youth Fair in July 2019.
