

### Table 1. Soil Fertility Program

It is a good practice to have your garden soil tested for nutritional needs and pH every four years or so. Soil test information sheets and soil sample bags can be obtained from your county extension office. There is a small fee for the soil testing service.

Date of last soil test \_\_\_\_\_

Soil test recommendation \_\_\_\_\_

### Fertilizer Applications

Record the fertilizer applications for this year. Record application amounts per 1,000 square feet. See PM 820, *Garden Soil Management*, for more information. If you have records for the previous two years, include those here. As you plan future gardens, check this year's 4-H record to help you plan to meet your soil nutrient needs.

Year	Amount of lime	Amount of manure or compost	Commercial fertilizer	
			Analysis	Amount

### Table 2. Record of Insect and Disease Control

Date	Crop(s)	Pest(s) to be controlled	Kind of spray, dust, or nonchemical control method used

### Table 3. Planting, Harvesting, and Sales Record

Some crops require harvesting several times during the season, such as cucumbers, tomatoes, green beans, etc.; try to weigh and record as many of these harvests as possible. Even though you may harvest many times, you only need to record the date a crop was planted one time. Use local grocery store prices to estimate the value of fruits and vegetables used at home. Include those used fresh and those stored for winter use, such as onions and potatoes. See PM 731, *Harvesting and Storing Vegetables*, for information on the proper time to harvest vegetables.

Date planted	Crop (variety)	Dates harvested	Total yield in pounds or numbers	Comparable value from store	Total value used at home (yield 3 value)	Total value of product sold
<b>Total</b>					Box 1 \$	Box 2 \$
					<b>Total value</b> (Box 1 + Box 2)	\$

**Table 4. Expenses**

Date	Items (fertilizer, seed, plants, pesticides, wire cages, stakes, etc.)	Amount
Total expenses		\$

**Table 5. Net Return**

	Amount
Total value from table 3	
Minus total expenses from table 4	
Net return	\$
