

Helpful Hints [How to Complete this Form] State 4-H Awardrobe Clothing Event Report Form

THE \$15 CHALLENGE

I. PROJECT GOAL AND EVALUATION (5 points)

A. What goal did you set for the Clothing Event?

What you wanted to learn or do needs to be within your control. For example, being selected for state fair was in the judge's control thus not an appropriate goal! Limit what you wanted to learn or do to two or three things. What do you want to gain from this experience? New sewing skills (be specific)? Consumerism? Comparison Shopping? Fit? Self Confidence?
If staying in your budget was a goal, what was your budget? What did you consider besides cost? Other goals could be time—have outfit done by... or could be stepping out of comfort zone.

For The \$15 Challenge, the challenge can be a part of the goal.

B. How did you go about reaching your goal? Did you reach your goal? Explain.

How: You are on your own here!

Reflect on the first question. What did you gain? What did you learn? Don't be afraid to add other things you learned or discovered once you reflect on your goal!

II. CHOOSING CLOTHING TO ENHANCE APPEARANCE AND INCREASE SELF CONFIDENCE (10 points)

A. How does this garment/outfit express your personality? How is the color, fabric, style, or fit of this garment/outfit a good choice for your size, or your body shape?

"Challenges in Clothing" ([4H 315ABC](#)), p. 20, 62, 63

If you could describe yourself in three words (i.e. practical, artistic, outdoorsy). List these. Now think about your outfit and consider how the outfit reflects the words used to describe you. If you are energetic, what is there about the outfit that emphasizes that? If you want to look "professional", what specific details of your outfit contribute to that look?

"Adventures in Clothing" ([4H 315ABC](#)),, p. 6-8

"Challenges in Clothing" ([4H 315ABC](#)), p. 13, 20, 46 (Also, p. 15, 16-17 for purpose and rest of wardrobe.)

"Unraveling the Mysteries of Elements and Principles of Design in Clothing" ([4H 313](#))

Note: Be sure to include COLOR, FABRIC, STYLE (OR FIT). Fabric choice might include the care and qualities.

B. Why do you think the fabric is a good choice for the garment design and features?

"Challenges in Clothing" ([4H 315ABC](#)), p. 21-27

Note: Begin by listing the fiber/fabric content. Why is cotton comfortable and cool? Because it absorbs perspiration. Why is lycra added to cotton? It allows ease of movement with a little stretch. It will also not be as cool as 100% cotton. If a fabric "breathes" it offers thermal control and is therefore comfortable. For Clothing Selection, you may ask yourself, "Why might the designer have chosen this fabric or type of fabric for this design." It might help to think extremes—terrycloth for prom gowns? Satin for jeans?

C. How does this garment/outfit show/reflect current fashion trends? [color(s), fit, shape(s), texture(s)]

“Strategies in Clothing” (4H 315ABC), p. 12-13
 How do you know if something is in style? Stores; Fashion magazines; Catalogs.
 Look at colors, lengths, shapes (bell-bottom pants vs. straight legs), textures, patterns, fit, lines. Is this a classic or a fad?

If you are presenting visible undergarment lines as a current fashion trend, include this here.
NOTE: An addition for 2007 on the Judges Evaluation Form under Section B (Modeling Evaluation) III. (Fit) includes “No visible undergarment lines.”

D. In what way did the design elements and principles found in this garment/outfit help you to choose this garment/outfit? *Participants in grades 9-10 are responsible for identifying a minimum of one art principle (rhythm, emphasis, proportion, balance, unity) and the element or elements (shape/form, color, texture, line) used in the selected principle. Participants in grade 11-12 are responsible for identifying a minimum of two art principles and the elements used in the selected principles. Youth must explain how the elements are used to illustrate the selected principle(s).*
